PRESS RELEASE

WATER USE RESTRICTION LIFTED

The Town of Plattsburgh Water District residents (to include Beekmantown and Woods Mills) are hereby notified that the Town is rescinding the Water Use Restriction:

Although the restriction is lifted the Water & Wastewater Department would appreciate your cooperation by using water sensibly

For example:

Water lawns & gardens early morning or late evening
During the washing of vehicles & structures don't let
water run between rinses

Due to the predicted dry weather condition forecast for this week, your continued conservation and support will help insure the restriction will not have to be reinstated.

Any questions, please contact The Town of Plattsburgh Water and Wastewater Utilities Department at 562-6890.

Information is also available at the website
