

I will include my certificate of liability insurance. To be clear I am a full time licensed funeral director and my insurance covers me for small jobs on the side such as mowing, landscaping, snowplowing and light construction. The gentlemen from the Town of Ellensburg had reached out to see if I would be interested in assisting while Steve was out. I am happy to help out and I am well aware of how all the equipment is operated but I have not been involved in many of the conversations so I'm not positive what has been discussed this far.

[illegible]
