Re: Speed Limit change – Rand Hill Road

The Highway Department is requesting a resolution to reduce the speed limit on Rand Hill Road which is a county road. A letter and two page petition was delivered to the Town of Plattsburgh requesting this change. See attached. If you have any question, feel free to contact me at your convenience.

Sincerely,

Tim DuBrey

TO: Town of Plattsburgh Supervisor

Attach is a two Page petition for speed limit reduction for a section of the Rand Hill Rd. The current methods for speed reduction and road safety are not working. We already have double solid lines, yellow warning signs for curves and actual curves. We still have excessive speed. drivers passing and vehicles going off the road. While I was out getting signatures, I heard countless stories of close calls, including one involving a school bus and on the lower end of this section of road two separate accounts of vehicles upside down in a resident's front yard, a van getting totaled in a resident's driveway, a rear end accident and mailboxes being taking out several times. We definitely need another solution which is the request for a speed limit reduction, we appreciate your help.

Petition for Speed Limit Reduction

We the undersigned residents of Rand Hill Rd, Morrisonville, NY from the intersection with RTE 374 north to the intersection with Town Line Rd and Golden Rd request a reduction of the speed limit.

Due to increase in traffic volume from the increase number of our own residences and an increase number of residences of the surrounding areas as through traffic.

Also due to excessive speed, increased distractive drivers, several limited sight distances, curves and hills, and an increase in driveways increasing the number of vehicles entering and exiting the road.

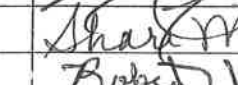

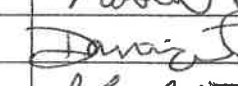

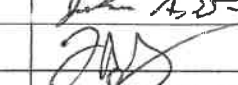

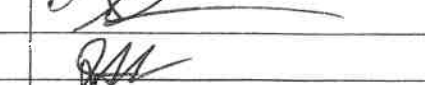

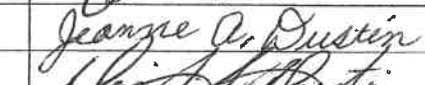

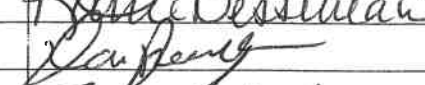

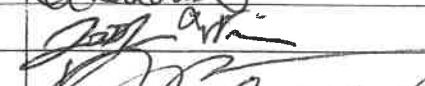

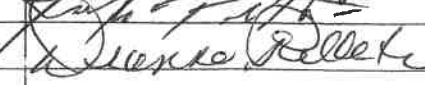

For the safety of our residents and visitors which include many children and pedestrians we request a reduction of the speed limit on the above mention road.
