To: Honorable Michael S. Cashman  
Members of the Town Board

From: Water & Wastewater Department

**RE: Water & Wastewater May Report**

- Collected all required monthly samples
- Meters read, and inventoried. Skip reports completed.
- Operation Reports to CCDH.
- Review of the monthly Planning Board Meeting regarding upcoming projects.
- There were 135 daily job orders, and 182 locates for DSNY including 20 Emergency.
- There were 11 afterhours callouts.
  1. We were paged to 7 Heritage Drive, they had no water. When we were there earlier in the day we tried to exercise the shut off and it broke in the off position. We were under the impression they still had water when we left. We contacted the neighbor and ran a line from one hose bib to the other for temporary water for the night.
  2. The City of Plattsburgh DPW called on a Friday night regarding all the issues they were having at PARC with main breaks and asked about our inventory for repair fittings, I told them I would go in in the morning to check and would contact them. When I called them back Saturday morning things had gotten worse and they requested the use of the Vac-truck and 2 operators.
  3. We were paged out for a leak on a service line in the Rugar Park vicinity.
  4. There was a callout for "low wet well" at Bullis Road Water Treatment Plant, this was due to unreliable electrical supply from NYSEG and Well 7 tripped out.
  5. We responded to a call for a sewer overflow from a manhole on Windswept Lane. Two men went with the Vac-truck.
  6. We notified from the call out box that there was a low clear well level at GPWTP. It was determined Well 1 pump had failed.
  7. We were called to Maple Ponds Park on Wallace Hill to shut down the water supply so the contractor could make emergency repairs to a service inside the park.
